### **Deconcentration of Poverty and Income-Mixing [24 CFR 903.1 and 903.2]**

The Area Housing Authority of the County of Ventura's (AHA) admission policy must be designed to provide for deconcentration of poverty and income-mixing by bringing higher income tenants into lower income projects and lower income tenants into higher income projects. A statement of the AHA's deconcentration policies must be included in its annual plan [24 CFR 903.7(b)].

The AHA's deconcentration policy must comply with its obligation to meet the income targeting requirement [24 CFR 903.2(c)(5)].

Developments subject to the deconcentration requirement are referred to as 'covered developments' and include general occupancy (family) public housing developments. The following developments are not subject to deconcentration and income mixing requirements: developments operated by a PHA with fewer than 100 public housing units; mixed population or developments designated specifically for elderly or disabled families; developments operated by a PHA with only one general occupancy development; developments approved for demolition or for conversion to tenant-based public housing; and developments approved for a mixed-finance plan using HOPE VI or public housing funds [24 CFR 903.2(b)].

### **Steps for Implementation [24 CFR 903.2(c)(1)]**

To implement the statutory requirement to deconcentrate poverty and provide for income mixing in covered developments, the AHA must comply with the following steps:

Step 1. The AHA must determine the average income of all families residing in all the AHA's covered developments. The AHA may use the median income, instead of average income, provided that the AHA includes a written explanation in its annual plan justifying the use of median income.

#### **AHA Policy**

The AHA will determine the average income of all families in all covered developments on an annual basis.

Due to the wide geographic jurisdiction of the AHA, waiting lists are administered on a site-based method. Applicants apply at the specific site they are interested in. The wide geography also results in the varying income demographics of each city. Because of the unique nature of each city, deconcentration analysis is conducted by city.

Step 2. The AHA must determine the average income (or median income, if median income was used in Step 1) of all families residing in each covered development. In determining average income for each development, the AHA has the option of adjusting its income analysis for unit size in accordance with procedures prescribed by HUD.

### **AHA Policy**

The AHA will determine the average income of all families residing in each covered development (not adjusting for unit size) on an annual basis.

Step 3. The AHA must then determine whether each of its covered developments falls above, within, or below the established income range (EIR), which is from 85% to 115% of the average family income determined in Step 1. However, the upper limit must never be less than the income at which a family would be defined as an extremely low income family (federal poverty level or 30 percent of median income, whichever is higher).

Step 4. The AHA with covered developments having average incomes outside the EIR must then determine whether or not these developments are consistent with its local goals and annual plan.

Step 5. Where the income profile for a covered development is not explained or justified in the annual plan submission, the AHA must include in its admission policy its specific policy to provide for deconcentration of poverty and income mixing.

Depending on local circumstances the AHA's deconcentration policy may include, but is not limited to the following:

- Providing incentives to encourage families to accept units in developments where their income level is needed, including rent incentives, affirmative marketing plans, or added amenities
- Targeting investment and capital improvements toward developments with an average income below the EIR to encourage families with incomes above the EIR to accept units in those developments
- Establishing a preference for admission of working families in developments below the EIR
- Skipping a family on the waiting list to reach another family in an effort to further the goals of deconcentration
- Providing other strategies permitted by statute and determined by the AHA in consultation with the residents and the community through the annual plan process to be responsive to local needs and AHA strategic objectives

A family has the sole discretion whether to accept an offer of a unit made under the AHA's deconcentration policy. The AHA must not take any adverse action toward any eligible family for choosing not to accept an offer of a unit under the AHA's deconcentration policy [24 CFR 903.2(c)(4)].

If, at annual review, the average incomes at all general occupancy developments are within the EIR, the AHA will be considered to be in compliance with the deconcentration requirement and no further action is required.

### **AHA Policy**

For developments outside the EIR the AHA will take the following actions to provide for deconcentration of poverty and income mixing:

The AHA's deconcentration and income-mixing goal, in conjunction with the requirement to target at least 40% of new admissions to public housing in each fiscal year to "extremely low-income families", will be to admit families above the AHA's EIR to developments below the EIR, and families below the AHA's EIR to developments above the EIR. Deconcentration applies to transfer families as well as applicant families.

### **Project Designation Methodology**

The AHA will determine on an annual basis, the average income of all families residing in general occupancy developments. The AHA will then determine the average income of all families residing in each general occupancy development. If a covered development is both below the 30 percent area-wide median and above the 115 percent income average for the AHA-wide covered development, it will be considered to be within the EIR. The AHA will then determine whether each general occupancy development falls above, within, or below the EIR.

The EIR is 85% to 115% (inclusive of 85% and 115%) of the AHA-wide average income for general occupancy/family developments. If a covered development is both below the 30 percent area-wide median and above the 115 percent income average for PHA-wide covered developments, it will be considered to be within the EIR. The AHA will then determine whether or not developments outside the EIR are consistent with local goals and strategies in the PHA Plan. The AHA may explain or justify the income profile for these developments as being consistent with and further two sets of goals:

1. Goals of deconcentration of poverty and income mixing (bringing higher income families into lower income developments and vice versa); and
2. Local goals and strategies contained in the PHA Plan.

## **Deconcentration Policy**

If, at annual review, there are found to be developments with average incomes above or below the EIR, and where the income profile for a general occupancy development above or below the EIR is not explained or justified in the PHA Plan, the AHA shall list these covered developments in the PHA Annual Plan. The AHA shall adhere to the following policies for deconcentration of poverty and income mixing in applicable developments.

Skipping a family on the waiting list to reach another family in an effort to further the goals of the AHA's deconcentration policy:

- If a unit becomes available at a development below the EIR, the first eligible family on the waiting list with income above the EIR will be offered the unit. If that family refuses the unit, the next eligible family on the waiting list with income above the EIR will be offered the unit. The process will continue in this order. For the available unit at the development below the EIR, if there is no family on the waiting list with income above the EIR, or no family with income above the EIR accepts the offer, then the unit will be offered to the first eligible family on the waiting list in preference order regardless of income.
- If a unit becomes available at a development above the EIR, the first eligible family on the waiting list with income below the EIR will be offered the unit. If that family refuses the unit, the next eligible family on the waiting list with income below the EIR will be offered the unit. The process will continue in this order. For the available unit at the development above the EIR, if there is no family on the waiting list with income below the EIR, or no family with income below the EIR accepts the offer, then the unit will be offered to the first eligible family on the waiting list in preference order regardless of income.
- Skipping of families for deconcentration purposes will be applied uniformly to all families.
- A family has the sole discretion whether to accept an offer of a unit made under the AHA's deconcentration policy. The AHA shall not take any adverse action toward any eligible family for choosing not to accept an offer of a unit under the AHA's deconcentration policy. However, the AHA shall uniformly limit the number of offers received by applicants.

The AHA may offer the following incentives to families with incomes above the EIR willing to move into a development with average income below the EIR and/or to families with incomes below the EIR willing to move into a development with average income above the EIR:

- AHA may pay for the installation of cable television; and/or
- AHA may pay for the installation of telephone service; and/or
- AHA may pay for utilities hookup.

## **Deconcentration Compliance**

If, at annual review, the average incomes at all general occupancy developments are within the Established Income Range, the AHA will be considered to be in compliance with the deconcentration requirement.

### **B.3 – Progress Report**

- Despite funding uncertainty, the AHA adapted and continued to address issues needed to attain its own goals in one of the highest-cost counties in the state. The AHA continues to be viewed as a community leader throughout Ventura County. Through our good work and stewardship and by producing and maintaining high quality affordable housing, as well as bettering the lives of the residents we serve, the AHA has developed an excellent reputation and earned a great deal of public goodwill, which can be leveraged to further the production of needed affordable housing for the community.
- The AHA continues to be called upon occasionally by both non-profit housing developers and social service agencies to assist with financing their housing endeavors on a tax-exempt basis, as well as providing rental subsidies. Both of these tools, tax exempt financing assistance and rental assistance, are key tools for making affordable housing projects economically feasible in the Ventura County housing market. The AHA recognizes that it cannot meet all of the community's affordable housing needs on its own and remains poised and available to work with others on this important community goal.
- The AHA continues to research the availability of land in its jurisdictions suitable for development, or the acquisition of affordable housing.
- When and where feasible, the AHA continues to seek additional project-based units.
- The AHA has experienced ongoing implementation of structural modifications/upgrades, management improvements, and maintenance of Public Housing developments through the Capital Fund program.
- The AHA continues to work by partnering residents with local facilities and agencies, to assist them in developing successful life management skills. In conjunction with Ventura County social services agencies and the community at large, the AHA provides access and information on employment, education and tutoring, wellness, health, and safety. Also, in conjunction with Conejo Valley and Ventura Unified School Districts, and the Superintendent of Schools Office to provide a summer lunch program and operate an after-school program which consists of tutoring, recreation, leadership meetings, and other activities.
- The AHA continues to recruit families who are eligible to participate in the Housing Choice Voucher Program's Family Self-Sufficiency (FSS) Program. This worthwhile program provides additional resources which help families develop realistic and obtainable goals, along with support and encouragement to reach those goals and become self-sufficient. The AHA does its best to help such families reach their goal to become independent of welfare.
- AHA directors and managers continue to be actively involved with community issues and participate in affordable housing planning.
- To promote positive public relations for the AHA and enhance program awareness, public presentations are made by the Executive Director, Deputy Executive Director and staff on affordable housing issues.
- The AHA continues to actively apply for new vouchers when notices of funding availability are issued. In addition, a total of 46 Emergency Housing Vouchers are on the AHA's portfolio.

- The AHA continues to implement Small Area Fair Market Rent (SAFMR) payment standards. SAFMRs are Fair Market Rents calculated at the ZIP code level rather than for the entire metropolitan area. SAFMRs allow for payment standards to be established that more accurately reflect the local market and are intended to provide families with more access to low-poverty, high-opportunity areas.
- The AHA uses technology through its creation of an ADA accessible website. Access to information and the application process continues to be evaluated and enhanced as needed. The AHA ensures information on its website is up to date, accessible and relevant.
- Availability of training is ongoing and several times a year staff attends job related training either in person or online. Additionally, staff regularly participates in training on a variety of topics including customer service, fair housing, harassment, VAWA, inspection, rent calculation, low income housing tax credit program compliance and financing.
- The AHA continues to work with the Cities in its jurisdiction and the County of Ventura on the annual consolidated plan and housing element updates to ensure affordable housing elements are in line with policies.
- Continue collaboration with Cal Lutheran University for university students to provide tutoring at the family sites and office support at the AHA office.
- The AHA completed the construction of the Vista Campanario Apartments (VCA). VCA consists of 60 affordable housing units assisted under the Project Based Voucher Program at 2800 Barry Street in Camarillo. The lease up of VCA was completed on April 1, 2025.
- The AHA collaborated with Many Mansions to co-develop the Rancho Sierra Senior Apartments (RSSA). RSSA consists of 50 affordable housing units assisted under the Project Based Voucher Program for seniors at 1732 South Lewis Road in Camarillo. The lease up of RSSA was completed on November 26, 2025.
- Collaborate with community partners to strengthen AHA's response to critical community needs and issues.
- Review the methods and manners in which the AHA works in order to accomplish its mission.

6. The PHA certifies that it will carry out the public housing program of the agency in conformity with Title VI of the Civil Rights Act of 1964 (42 U.S.C. 2000d-2000d-4), the Fair Housing Act (42 U.S.C. 3601-19), Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794), Title II of the Americans with Disabilities Act (42 U.S.C. 12101 et seq.), the Violence Against Women Act (34 U.S.C. § 12291 et seq.), and other applicable civil rights requirements, and that it will affirmatively further fair housing in the administration of all HUD programs. In addition, if it administers a Housing Choice Voucher Program, the PHA certifies that it will administer the program in conformity with Title VI of the Civil Rights Act of 1964, the Fair Housing Act, Section 504 of the Rehabilitation Act of 1973, Title II of the Americans with Disabilities Act, the Violence Against Women Act, and other applicable civil rights requirements, and that it will affirmatively further fair housing in the administration of all HUD programs.
7. The PHA will affirmatively further fair housing, in compliance with the Fair Housing Act, 24 CFR § 5.150 et seq., 24 CFR § 903.7(o), and 24 CFR § 903.15, which means that it will take meaningful actions, in addition to combating discrimination, that overcome patterns of segregation and foster inclusive communities free from barriers that restrict access to opportunity based on protected characteristics. Specifically, affirmatively furthering fair housing means taking meaningful actions that, taken together, address significant disparities in housing needs and in access to opportunity, replacing segregated living patterns with truly integrated and balanced living

patterns, transforming racially or ethnically concentrated areas of poverty into areas of opportunity, and fostering and maintaining compliance with civil rights and fair housing laws (24 CFR § 5.151). Pursuant to 24 CFR § 903.15(c)(2), a PHA's policies should be designed to reduce the concentration of tenants and other assisted persons by race, national origin, and disability. PHA policies should include affirmative steps stated in 24 CFR § 903.15(c)(2)(i) and 24 CFR § 903.15(c)(2)(ii). Furthermore, under 24 CFR § 903.7(o), a PHA must submit a civil rights certification with its Annual and 5-year PHA Plans, except for qualified PHAs who submit the Form HUD-50077-CR as a standalone document. The PHA certifies that it will take no action that is materially inconsistent with its obligation to affirmatively further fair housing.

8. For PHA Plans that include a policy for site-based waiting lists:
  - The PHA regularly submits required data to HUD's 50058 PIC/IMS Module and/or its successor system: the Housing Information Portal (HIP) in an accurate, complete and timely manner (as specified in PIH Notice 2011-65);
  - The system of site-based waiting lists provides for full disclosure to each applicant in the selection of the development in which to reside, including basic information about available sites; and an estimate of the period of time the applicant would likely have to wait to be admitted to units of different sizes and types at each site;
  - Adoption of a site-based waiting list would not violate any court order or settlement agreement or be inconsistent with a pending complaint brought by HUD;
  - The PHA shall take reasonable measures to assure that such a waiting list is consistent with affirmatively furthering fair housing; and
  - The PHA provides for review of its site-based waiting list policy to determine if it is consistent with civil rights laws and certifications, as specified in 24 CFR 903.7(o)(1).
9. The PHA will comply with the prohibitions against discrimination based on age pursuant to the Age Discrimination Act of 1975.
10. In accordance with the Fair Housing Act, the PHA will not base a determination of eligibility for housing on marital status and will not otherwise discriminate because of sex.
11. The PHA will comply with the Architectural Barriers Act of 1968 and 24 CFR Part 41, 'Policies and Procedures for the Enforcement of Standards and Requirements for Accessibility by the Physically Handicapped' for people with physical disabilities.
12. The PHA will comply with the requirements of Section 3 of the Housing and Urban Development Act of 1968, Employment Opportunities for Low-or Very-Low Income Persons, and with its implementing regulation at 24 CFR Part 135.
13. The PHA will comply with the acquisition and relocation requirements of the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 and implement the regulations at 49 CFR Part 24 as applicable.

16. With respect to public housing the PHA will comply with Davis-Bacon or HUD determined wage rate requirements under Section 12 of the United States Housing Act of 1937 and the Contract Work Hours and Safety Standards Act.
17. The PHA will keep records in accordance with 2 CFR 200.302 and facilitate an effective audit to determine compliance with program requirements.
18. The PHA will comply with the Lead-Based Paint Poisoning Prevention Act, the Residential Lead-Based Paint Hazard Reduction Act of 1992, and 24 CFR Part 35.
19. The PHA will comply with the policies, guidelines, and requirements of 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Financial Assistance, including but not limited to submitting the assurances required under 24 CFR §§ 1.5, 3.115, 8.50, and 107.25 by submitting an SF-424, including the required assurances in SF-424B or D, as applicable.
20. The PHA will undertake only activities and programs covered by the Plan in a manner consistent with its Plan and will utilize covered grant funds only for activities that are approvable under the regulations and included in its Plan.
